As a Tourist: - Service staff will bow to you first (you're the customer) - You can bow back as acknowledgment - Don't worry too much about getting it perfect - When in doubt, match the other person's bow

6.3.1.6 Bowing Tips for Tourists DO: - Keep your back straight - Hands at your sides or on thighs (women) or sides (men) - Bend at the waist - Keep eye contact until you start bowing, then look down - Bow back when someone bows to you - Practice a casual 15-degree bow for everyday use

6.3.3.6 Additional Chopstick Tips DO: - Hold chopsticks in the middle to upper third - Keep chopstick tips aligned - Pick up food confidently - Put chopsticks down while drinking or talking - Use both chopsticks together - Break apart food too large to eat in one bite

DON'T: - Hold too close to the tips (shows poor skills) - Hold too close to the ends (awkward) - Use only one chopstick (use both) - Clutch them in your fist - Make noise with them - Play with them - Bite them - Gesture with them

If You Drop a Chopstick: - Ask for new ones - Don't pick it up and use it - Staff will bring replacements

Fork and Knife: - It's okay to ask for a fork if struggling - Say: "Fōku wa arimasu ka?" (Do you have a fork?) - Most restaurants will accommodate - Don't feel embarrassed

What NOT to Give: - **Sets of four:** Number four (shi) sounds like death - **Sets of nine:** Number nine (ku) sounds like suffering - **Knives or scissors:** Symbolize cutting relationships - **White flowers:** Associated with funerals - **Handkerchiefs:** Associated with sadness/farewell - **Clocks or watches:** Symbolize running out of time - **Used items:** Except valuable antiques - **Too expensive:** Creates obligation to reciprocate - **Gifts for individuals in group setting:** Give to group or bring multiples

6.3.4.3 How to Present Gifts Presentation Rules:

Wrapping: - **Very important:** Presentation matters as much as the gift - Department stores offer gift wrapping services - Use proper gift wrap, not regular paper - Include noshi (decorative paper) for formal gifts - Never give unwrapped gifts - Keep packaging nice even if bought for travel

Physical Presentation: 1. Present with both hands 2. Offer humbly with a bow 3. Face the wrapping toward recipient 4. Say appropriate phrase (see below) 5. Downplay your gift with humble language

Phrases When Giving: - “Tsumaranai mono desu ga...” (つまらないものですよ) - “This is a trifling thing, but...” (most common) - Humble language to downplay your gift - “Kochira, omiyage desu” (こちら、おみやげです) - “This is a souvenir” - “Uchi no kuni kara motte kimashita” (うちから持ちました) - “I brought this from my country” - “Sukoshi desu ga...” (すこしですよ) - “It’s just a little something...”

Business Gift Tips: - Not too expensive (creates obligation) - Company-branded items acceptable - Regional specialties good - Present to most senior person with both hands

6.3.5 5. Onsen Etiquette (温泉の作法)

Onsen (natural hot spring baths) are a quintessential Japanese experience. Following proper etiquette is essential for a good experience and showing respect to others.

6.3.5.1 Complete Onsen Rules 8 Fundamental Rules:

6.3.5.2 Rule 1: Wash Thoroughly Before Entering Procedure: 1. Enter bathing area (after changing) 2. Find a washing station 3. Sit on the small stool 4. Use shower to wet yourself completely 5. Soap and wash your entire body 6. Shampoo and condition hair 7. Rinse thoroughly - all soap must be removed 8. Rinse your stool and put things away neatly 9. Only then enter the bath

Why It Matters: - The bath is for soaking, not washing - Everyone shares the same water - Soap in the bath is unacceptable - You must be completely clean before entering

6.3.5.3 Rule 2: No Swimsuits - Completely Nude The Rule: - Everyone bathes completely naked - No swimsuits, underwear, or towels in the water - Applies to men's and women's sides (separated) - Only exception: some mixed (konyoku) outdoor baths allow towel wrapping

Why It Matters: - Hygienic reasons (fabric harbors bacteria) - Traditional cultural practice - Swim fabric can release fibers into water - Universal rule with almost no exceptions

Tips: - Don't worry - everyone is naked too - Separate areas for men and women - Look for: (otoko/men) or (onna/women) - Blue noren (curtain) = men, Red noren = women - Most people don't stare - very normal

6.3.5.4 Rule 3: Tattoo Policies Traditional View: - Tattoos associated with yakuza (Japanese mafia) - Many onsen ban tattoos completely - Strict policy at traditional onsen - Rule is slowly changing but still prevalent

What This Means for Tattooed Tourists:

Options if You Have Tattoos: 1. **Cover small tattoos:** Use large waterproof bandages (sold at drug-stores) 2. **Find tattoo-friendly onsen:** Some allow tattoos, especially in touristy areas 3. **Private/family baths:** Reserve a private bath (kazoku-buro) 4. **Ryokan with private onsen:** Book room with private onsen 5. **Ask beforehand:** Call or check website about tattoo policy

Finding Tattoo-Friendly Onsen: - Website: tattoo-friendly.jp - Look for "tattoo OK" (OK) - Hakone, Nikko, Kusatsu have some accepting places - Smaller tattoos easier to accommodate

6.3.5.5 Rule 4: Towel Usage - Never in the Water Towel Rules:

Small Towel (Tenugui -): - Bring into bathing area - Use to cover privates while walking (optional) - Can use to wipe face while in bath - **Never put in the bath water** (critical rule) - Put on head or fold on side of bath while soaking

Large Towel: - Leave in changing area - Never bring into bathing area - Use after exiting to dry off

Why No Towels in Water: - Same reason as swimsuits - harbors bacteria - Releases fibers and soap residue - Pollutes the shared water - Shows lack of respect

6.3.5.6 Rule 5: Hair Rules Hair Etiquette: - **Long hair must be tied up** - Use provided hair tie or bring your own - Hair must not touch the water - Men with long hair must also tie it up - Bun, ponytail, or clip acceptable

Why: - Hygienic - hair sheds - Hair in water is considered dirty - Universal rule, strictly enforced

6.3.5.7 Rule 6: Photography Ban Photography Rules: - **Absolutely no photography** in bathing areas - No cameras, no phones, nothing - Applies to changing rooms too - May be able to photograph entrance area only - Outdoor scenery photos okay if no people

Why: - Privacy reasons (everyone is naked) - Respect for others - Serious violation if broken - Can be kicked out immediately

Allowed Photos: - Private family bath (if you rented it) - Promotional photos in public areas - Exterior of facility - Foot baths (clothing on)

6.3.5.8 Rule 7: Quiet Behavior Behavioral Expectations: - Keep noise to minimum - No loud talking - No splashing - No swimming or playing - No running - Peaceful atmosphere required - Quiet conversation acceptable but not loud

Why: - Onsen is for relaxation and contemplation - Respect others' experience - Traditional tranquility - Noise echoes in bathing areas

Tips: - Speak in hushed tones - Enter and exit water smoothly - Don't disturb others' peace - Save excited conversation for after

6.3.5.9 Rule 8: Don't Drain the Water or Add Cold Water Water Rules: - Don't add cold water to cool down the bath - Don't open drain - Don't adjust temperature - Water temperature is set deliberately - If too hot, splash water on yourself to acclimate

Why: - Onsen water temperature is carefully maintained - Everyone shares the same temperature - Changing it is selfish - Natural hot spring temperature is specific

If Too Hot: - Splash water on body to adjust - Start with legs/arms before full body - Sit on edge and gradually enter - Enter slowly - Take breaks if needed

6.3.5.10 Additional Onsen Guidelines Before Entering: - Remove all jewelry (can damage from minerals) - Remove glasses if possible (steam will fog them) - Tie up long hair - Don't bring anything into bath (drinks, books, phones) - Use toilet before bathing

While Bathing: - Rinse at shower station before re-entering if you exit - Don't stay too long (10-15 minutes at a time) - Take breaks to avoid overheating - Stay hydrated (drink water before and after) - Don't put head underwater - Move slowly and carefully (can be slippery)

Order of Baths: - Indoor bath first - Then outdoor bath (rotenburo) - Sauna (if available) - shower first after - Different temperature pools - start warm - Don't rush between baths

After Bathing: - Pat dry with small towel before entering changing area - Drink water or tea (usually provided) - Wait before eating (give body time to adjust) - Consider skipping one washing cycle if returning to different bath

Special Bath Types:

Rotenburo () - Outdoor Bath: - Scenic outdoor bath - Wash indoors first, then go outside - May have beautiful views - Can be cooler (especially in winter) - Towel on head okay (not in water)

Kazoku-buro () - Family/Private Bath: - Private bath you reserve - Good for families, couples, tattoo concerns, or shy people - Usually time-limited (30-45 minutes) - Costs extra (¥2,000-5,000+) - Book in advance at front desk - Can take photos here (it's private)

Ashiyu () - Foot Bath: - Public foot-soaking bath - Keep clothes on - Free or small fee - Common at train stations and tourist areas - More casual, can chat and take photos

6.3.5.11 Health and Safety Don't Enter Onsen If: - You have open wounds or cuts - You're very drunk - You have a contagious skin condition - You have a heart condition (consult doctor) - You're feeling ill

Health Tips: - Stay hydrated before and after - Don't bathe right after eating (wait 30 minutes) - Don't drink alcohol before bathing - Take breaks if feeling dizzy - Be careful of slippery surfaces - Temperature can spike blood pressure

After Onsen: - Some say don't shower (let minerals stay on skin) - Others prefer to rinse (depends on mineral content) - Ask locals or staff for recommendation - Drink plenty of water - Rest if feeling tired

7 SECTION V: READING & WRITING SYSTEMS

7.1 Complete Guide to Japanese Scripts

Japanese uses three writing systems simultaneously: **hiragana** (cursive phonetic), **katakana** (angular phonetic), and **kanji** (Chinese characters). This comprehensive guide will teach you all three systems, focusing on tourist survival essentials.

7.2 A. HIRAGANA () - Complete

Hiragana is the most fundamental Japanese script. It represents all Japanese sounds and is used for native Japanese words, grammar particles, and verb endings.

7.2.1 1. Basic Hiragana (46 Characters)

Romaji	Hiragana	Romaji	Hiragana	Romaji	Hiragana	Romaji	Hiragana	Romaji	Hiragana
a		i		u		e		o	
ka		ki		ku		ke		ko	
sa		shi		su		se		so	
ta		chi		tsu		te		to	
na		ni		nu		ne		no	
ha		hi		fu		he		ho	
ma		mi		mu		me		mo	
ya		-	-	yu		-	-	yo	
ra		ri		ru		re		ro	
wa		-	-	-	-	-	-	wo	
n		-	-	-	-	-	-	-	-

Special notes: - **(wo)** is only used as the object particle, pronounced “o” - **(ha)** when used as the topic particle is pronounced “wa” - **(he)** when used as the direction particle is pronounced “e” - **(n)** is the only consonant that stands alone

7.2.2 2. Dakuten () - Voiced Consonants (25 Characters)

Adding two small marks () changes the sound to a voiced consonant:

Romaji	Hiragana	Romaji	Hiragana	Romaji	Hiragana	Romaji	Hiragana	Romaji	Hiragana
ga		gi		gu		ge		go	
za		ji		zu		ze		zo	
da		ji		zu		de		do	
ba		bi		bu		be		bo	

Notes: - (ji) and (ji) sound the same; is more common - (zu) and (zu) sound the same; is more common - and are rare, mainly appearing in compound words

7.2.3 3. Handakuten () - P-Sound (5 Characters)

Adding a small circle () changes the “h” sound to “p”:

Romaji	Hiragana	Romaji	Hiragana	Romaji	Hiragana	Romaji	Hiragana	Romaji	Hiragana
pa		pi		pu		pe		po	

7.2.4 4. Small (ya/yu/yo) Combinations (36 Characters)

These create compound sounds by combining consonants with ya, yu, or yo:

|——|——|——| | pya | | pyu | | pyo | |

7.2.5 5. Double Consonants (Sokuon -)

The small (tsu) creates a pause before the next consonant, doubling its sound:

Important: This small is **never** pronounced. It represents a brief pause.

7.2.6 6. Long Vowels

Long vowels are held twice as long as regular vowels:

For , , sounds: - Add the same vowel: , , - Or use + , + , +

For and sounds: - : Usually add → (sounds like “eee”) - : Usually add → (sounds like “ooo”)

I drink coffee.

= kanji (I)
= hiragana (particle)
= katakana (coffee - foreign word)
= hiragana (particle)
= kanji (drink)
= hiragana (polite ending)

7.5.2 2. Common Patterns to Recognize

Station signs pattern:

↓

Tokyo Eki
(Tokyo Station)

- = Place name (kanji)
- = “Station” (kanji)

Exit signs pattern:

↓

Kita-guchi
(North Exit)

- First character(s) = Direction ()
- = Exit/Entrance

Floor indicators:

1F = (ikkai) = First floor
2F = (nikai) = Second floor
B1 = (chika ikkai) = Basement 1

Store signs:

= Open (eigyou-chuu)
= Preparing (junbi-chuu)
= Closed (heiten)
= Regular holiday (teikyuubi)

Toilet signs:

- or = Men (dansei/otoko)
- or = Women (josei/onna)
- = Restroom (tearai - literally "hand wash")

- = Closed (hei/shimeru)

Safety signs:

- = Danger (kiken)
- = Caution (chui)
- = Prohibited (kinshi)
- = No smoking (kin-en)

7.5.3 3. Survival Reading Strategy

Step-by-step approach for tourists:

STEP 1: Learn katakana first - Many tourist-relevant words are in katakana - Hotel (ホテル), toilet (トイレ), taxi (タクシー) - 80% of signs you need have katakana or English

STEP 2: Memorize key kanji (50-100 characters) - Focus on: (station), (exit), (men), (women)
- Numbers: (数字) - Directions: (東, 西, 南, 北) - Actions: (enter), (exit), (stop)

STEP 3: Pattern recognition - Most signs follow predictable patterns - [Direction] + (方向) = [Direction] + Exit - [Place] + (場所) = [Place] + Station - [Number] + (番号) = [Number] + Floor

STEP 4: Context clues - Look at pictures/icons - Colors (red = danger/stop, blue = information) - Location (bathroom signs near restaurants) - Pictograms (train, toilet, food symbols)

STEP 5: Use technology - Google Translate camera feature (real-time) - Yomiwa app (handwriting recognition) - Japanese dictionary apps (Jisho.org)

7.5.4 4. Practical Reading Scenarios

At the train station:

Look for these kanji: - (eki) = Station - (sen) = Line - (bansen) = Platform number - (hatu) = Departure - (chaku) = Arrival - (jikokuhyou) = Timetable - (kippu) = Ticket - (kaisatsu) = Ticket gate

At restaurants:

Look for: - (teishoku) = Set meal - (honjitsu no osusume) = Today's special - (ranchi) = Lunch (katakana) - (dinaa) = Dinner (katakana) - (menyu) = Menu (katakana) - (mochikaeri) = Takeout - (tabehoudai) = All-you-can-eat - (nomihoudai) = All-you-can-drink

In stores:

Look for: - (en) = Yen - (zeikomi) = Tax included - (zeinuki) = Tax excluded - (waribiki) = Discount - (seeru) = Sale (katakana) - (reji) = Register/Checkout (katakana) - (kaikai) = Accounting/Checkout - (menzei) = Tax-free

On signs:

Look for: - (iriguchi) = Entrance - (deguchi) = Exit - (hijouguchi) = Emergency exit - (eigyouchuu) = Open - (junbichuu) = Preparing - (teikyuubi) = Regular holiday

7.5.7 7. Memory Techniques

Mnemonics for kanji:

Use stories to remember complex characters:

Example: (bright/tomorrow) - Left side: (sun) - Right side: (moon) - Story: Sun + Moon = bright light =

Example: (rest) - Left side: (person) - Right side: (tree) - Story: Person leaning against tree = resting =

Visual associations:

Many kanji look like what they represent:

- (yama) = mountain (looks like peaks)
- (kawa) = river (looks like flowing water)
- (hi) = fire (looks like flames)
- (ki) = tree (looks like a tree trunk with branches)
- (hayashi) = woods (two trees)
- (mori) = forest (three trees)

Radical recognition:

Learn common radicals (building blocks):

Radical	Meaning	Kanji examples
(water)	Water	(ocean), (lake), (pond)
(person)	Person	(rest), (body), (what)
(hand)	Hand	(hold), (hit), (push)
(mouth)	Mouth/Opening	(name), (taste), (inhale)
(heart)	Heart/Feeling	(busy), (think), (hurry)
(walk)	Walking	(road), (near), (fast)

Spaced repetition: - Review new characters: Next day, 3 days, 1 week, 1 month - Apps like Anki automate this schedule - Consistency beats cramming

Practice these 20 characters daily and you'll navigate Japan confidently!

7.6 Summary: The Three Systems Working Together

Japanese writing is a **mix of all three systems** in every sentence:

Example:

Watashi wa hoteru de asa gohan o tabemashita.

I ate breakfast at the hotel.

Breaking it down: - (kanji) = I - (hiragana) = particle - (katakana) = hotel (foreign word) - (hiragana) = particle (location) - (kanji) = morning - (hiragana + kanji) = meal - (hiragana) = particle (object) - (kanji) = eat - (hiragana) = polite past tense ending

Why three systems? - **Hiragana** = Grammar glue, native words - **Katakana** = Foreign words, emphasis - **Kanji** = Meaning, efficiency (vs.)

Reading priority for tourists: 1. Master katakana (1-2 weeks) 2. Learn 50-100 essential kanji (2-4 weeks) 3. Learn hiragana for reading full sentences (2-4 weeks) 4. Practice daily with apps and real signs

You don't need to write perfectly - recognition is enough for tourism!

With this complete guide to Japanese writing systems, you now have all the tools needed to navigate signs, menus, and basic text throughout Japan. Start with katakana and the most common kanji, practice daily, and you'll be reading Japanese in no time!

8 VI. PRONUNCIATION GUIDE

8.1 Introduction

Japanese pronunciation is remarkably consistent and systematic compared to English. Once you learn the basic sounds, you can pronounce virtually any Japanese word correctly. There are no silent letters, and each character represents exactly one sound. This section will teach you the foundational sounds of Japanese and help you avoid common mistakes made by English speakers.

Key principle: Japanese is a syllable-timed language (like Spanish), whereas English is stress-timed. This means each syllable in Japanese gets roughly equal time and emphasis, creating a more rhythmic, even flow.

8.2 A. VOWELS

Japanese has only **5 vowel sounds**, and they are **always pronounced the same way**, regardless of context. This consistency makes Japanese pronunciation much more predictable than English.

8.2.1 The Five Vowels

Vowel	Pronunciation	English Approximation	Example Word	Meaning
a	“ah”	father, car	ame (ah-meh)	rain
i	“ee”	machine, see	ike (ee-keh)	pond
u	“oo”	food, rule	umi (oo-mee)	sea
e	“eh”	bed, pet	e (eh)	picture
o	“oh”	boat, so	ono (oh-noh)	axe

8.2.2 Detailed Vowel Explanations

8.2.2.1 A (/) - “ah”

- Open your mouth wide, as if saying “ah” at the dentist
- The jaw drops down comfortably
- It’s the “a” in “father,” NOT the “a” in “cat” or “fate”

Examples: - **arigatō** (ah-ree-gah-toh) - thank you - **akai** (ah-kah-ee) - red - **asa** (ah-sah) - morning - **sakana** (sah-kah-nah) - fish - **watashi** (wah-tah-shee) - I/me

8.2.2.2 I (/) - “ee”

- Lips stretched slightly to the sides, like a small smile
- Tongue forward in the mouth
- It’s the “ee” in “see,” NOT the “i” in “sit” or “site”

Examples: - **ichi** (ee-chee) - one - **imi** (ee-mee) - meaning - **kitte** (keet-teh) - stamp - **shio** (shee-oh) - salt - **onegaishimasu** (oh-neh-gah-ee-shee-mahs) - please

8.2.2.3 U (/) - “oo”

- Lips barely rounded, more relaxed than English “oo”
- NOT as pronounced as English “food” - keep it subtle
- It’s between “food” and “foot” but closer to “food”

Examples: - **umi** (oo-mee) - sea - **usagi** (oo-sah-gee) - rabbit - **kutsu** (koo-tsoo) - shoes - **fuyu** (foo-yoo) - winter - **kudamono** (koo-dah-moh-noh) - fruit

Important note: The “u” is often devoiced (barely audible) at the end of words or between voiceless consonants: - **desu** sounds like “des” (the “u” is whispered or silent) - **shimasu** sounds like “shee-mahs” (the “u” is barely there) - **sukiyaki** sounds like “s’kee-yah-kee” (first “u” is devoiced)

8.2.2.4 E (/) - “eh”

- Mouth half-open, wider than “ee” but not as wide as “ah”
- Similar to the “e” in “bet”
- It’s the “e” in “bed,” NOT the “ay” in “day”

Examples: - **eki** (eh-kee) - station - **ebi** (eh-bee) - shrimp - **densha** (den-shah) - train - **tegami** (teh-gah-mee) - letter - **senpai** (sen-pah-ee) - senior

8.2.2.5 O (/) - “oh”

- Lips form a round shape, but not too tight
- It's the “o” in “go,” NOT the “o” in “hot” or “woman”
- Keep it pure - don't glide into a “w” sound like in English “go” (goh-w)

Examples: - **ohayō** (oh-hah-yoh) - good morning - **okane** (oh-kah-neh) - money - **onsen** (on-sen) - hot spring - **tokoro** (toh-koh-roh) - place - **dōmo** (doh-moh) - thanks (casual)

8.2.3 Vowel Consistency Rule

The vowels NEVER change sound. This is the most important rule in Japanese pronunciation. Unlike English, where: - “a” can sound like: cat, fate, car, about, ball - “o” can sound like: hot, go, work, food

In Japanese: - “a” always sounds like “ah” (father) - “i” always sounds like “ee” (see) - “u” always sounds like “oo” (food) - “e” always sounds like “eh” (bed) - “o” always sounds like “oh” (go)

8.2.4 Practice Words

Japanese	Romaji	Pronunciation	Meaning
	ai	ah-ee	love
	ue	oo-eh	above
	ie	ee-eh	house
	ao	ah-oh	blue
	oi	oh-ee	nephew

	kieru	kee-eh-roo	to disappear
	aoi	ah-oh-ee	blue (adjective)
	ii	ee-ee	good
	oi	oh-oh-ee	many

8.3 B. CONSONANTS

Japanese consonants are generally softer and less aspirated (less air) than English consonants. Most are similar to English, but there are a few that require special attention.

8.3.1 Standard Consonants

8.3.1.1 K (k, g sounds)

Combination	Sound	Example	Meaning
ka	kah	kawa (kah-wah)	river
ki	kee	kitte (keet-teh)	stamp
ku	koo	kūki (koo-kee)	air
ke	keh	kēki (keh-kee)	cake
ko	koh	koko (koh-koh)	here

G sounds (voiced “k”): - ga, gi, gu, ge, go - **gakkou** (gahk-koh) - school - **ginkou** (geen-koh) - bank

8.3.1.2 S (s, z sounds)

Combination	Sound	Example	Meaning
sa	sah	sakura (sah-koo-rah)	cherry blossom
shi	shee	shio (shee-oh)	salt
su	soo	sushi (soo-shee)	sushi
se	seh	sensei (sen-say)	teacher
so	soh	sora (soh-rah)	sky

Important: “si” doesn’t exist in Japanese - it’s always written as “shi” (shee)

Z sounds (voiced “s”): - za, ji, zu, ze, zo - **zasshi** (zahs-shee) - magazine - **jikan** (jee-kahn) - time - **zubon** (zoo-bon) - pants

Important: “zi” doesn’t exist - it’s written as “ji” (jee)

8.3.1.3 T (t, d sounds)

Combination	Sound	Example	Meaning
ta	tah	taberu (tah-beh-roo)	to eat
chi	chee	chizu (chee-zoo)	map/cheese
tsu	tsoo	tsukue (tsoo-koo-eh)	desk
te	teh	tegami (teh-gah-mee)	letter
to	toh	tomodachi (toh-moh-dah-chee)	friend

Important: “ti” and “tu” don’t exist - they become “chi” and “tsu”

D sounds (voiced “t”): - da, ji (also written as “di”), zu (also written as “du”), de, do - **densha** (den-shah) - train - **doko** (doh-koh) - where

8.3.1.4 N Sounds

Combination	Sound	Example	Meaning
na	nah	nani (nah-nee)	what
ni	nee	niku (nee-koo)	meat
nu	noo	nuno (noo-noh)	cloth
ne	neh	neko (neh-koh)	cat
no	noh	nomi (noh-mee)	flea

Standalone N: The syllable “n” (/) can appear by itself at the end of syllables: - **sen** (sen) - thousand - **densha** (den-shah) - train - **kanpai** (kahn-pah-ee) - cheers - **nihon** (nee-hon) - Japan

This “n” sounds like “n” in “antenna” - it’s a syllabic nasal sound.

8.3.1.5 H (h, b, p sounds)

Combination	Sound	Example	Meaning
ha	hah	hana (hah-nah)	flower/nose
hi	hee	hito (hee-toh)	person
fu	foo	futon (foo-ton) - futon	
he	heh	heya (heh-yah)	room
ho	hoh	hon (hon)	book

Important: “hu” doesn’t exist - it’s always “fu” (see special explanation below)

B sounds (voiced “h”): - ba, bi, bu, be, bo - **basu** (bah-soo) - bus - **biiru** (bee-roo) - beer

P sounds (with small circle): - pa, pi, pu, pe, po - **pan** (pahn) - bread - **tempura** (tem-poo-rah) - tempura

8.3.1.6 M Sounds

Combination	Sound	Example	Meaning
ma	mah	matcha (maht-chah)	green tea
mi	mee	mizu (mee-zoo)	water
mu	moo	mushi (moo-shee)	insect

8.3.1.7 Y Sounds

Combination	Sound	Example	Meaning
ya	yah	yama (yah-mah)	mountain
yu	yoo	yuki (yoo-kee)	snow
yo	yoh	yoru (yoh-roo)	night

Note: There is no “yi” or “ye” in standard Japanese

8.3.1.8 R/L Sound - VERY IMPORTANT This is one of the most challenging sounds for English speakers. **The Japanese “r” sound is NOT the English “r” and NOT the English “l” - it’s somewhere in between.**

How to pronounce it: 1. Put your tongue in the “L” position (tip touching the ridge behind your upper teeth) 2. Tap lightly once, like a very soft “d” or “t” 3. It sounds like a cross between “r,” “l,” and “d” 4. Similar to the “tt” in American English “butter” or “batter” 5. In Spanish, it’s like the single “r” in “pero” (not the rolled “rr”)

Common mistake: English speakers say “lice” instead of “rice” or roll the R like in Spanish “perro.”

Correct approach: Think of it as a soft, single tap of the tongue.

Japanese	DON’T Say	DO Say	Meaning
ramen	LAY-men or RRRR-amen	ah-men (tap)	ramen
arigatō	ah-lee-gah-toh	ah- ee-gah-toh (tap)	thank you
karate	kah-lah-teh	kah- ah-teh (tap)	karate
sayonara	sah-yoh-nah-lah	sah-yoh-nah- ah (tap)	goodbye
sushi	soo-shee	soo-shee	sushi (no R/L)

Practice words: - **ringo** (een-goh) - apple - **ryokou** (yoh-koh) - travel - **kuruma** (koo- oo-mah) - car - **torii** (toh- ee-ee) - shrine gate - **irashaimase** (ee- ah-shah-ee-mah-seh) - welcome

8.3.1.9 W Sounds

Combination	Sound	Example	Meaning
wa	wah	watashi (wah-tah-shee)	I/me

Combination	Sound	Example	Meaning
wo	oh/woh	wo (oh) - object marker	

Note: - “wo” () is only used as a grammatical particle and sounds almost identical to “o” - There is no “wi” or “we” in modern standard Japanese - The “w” sound is very subtle, not as pronounced as English “w”

8.3.2 Special Consonant Sounds

8.3.2.1 F Sound - “fu” (/) The Japanese “fu” is NOT the English “f” sound. It’s unique:

How to pronounce it: 1. Don’t touch your upper teeth to your lower lip (like English “f”) 2. Instead, blow air gently through loosely rounded lips 3. It’s between “f” and “h” - more breathy than “f” 4. Think of it as blowing out a candle very gently

English “f”: Upper teeth touch lower lip → forceful air **Japanese “fu”:** Rounded lips, no teeth contact → gentle air

Practice words: - **futon** (foo-ton) - NOT “fton” - futon - **fuyu** (foo-yoo) - winter - **fune** (foo-neh) - boat - **fuku** (foo-koo) - clothes - **tofu** (toh-foo) - tofu

Common mistake: Saying “tofu” with English “f” sound. It should be breathy: “toh-hoo” (with rounded lips).

8.3.2.2 TSU Sound (/) - VERY IMPORTANT This is one of the most distinctive Japanese sounds and doesn’t exist in English. **It’s NOT “too” or “sue” - it’s a single sound: “tsu.”**

How to pronounce it: 1. Start in position to say “t” 2. Release into “soo” sound 3. It’s ONE syllable, not two: “ts-oo” said quickly together 4. Think of the “ts” in “cats” or “pots” - but add “oo” after it 5. The “t” and “s” are simultaneous, not separate

Practice progression: 1. Say “cats” → focus on the “ts” at the end 2. Now say “cats” again → but instead of stopping, add “oo”: “cats-oo” 3. Say it faster: “tsu” 4. That’s it!

DO: Say “ts-oo” as ONE beat/syllable **DON’T:** Say “t-soo” or “soo” (two beats)

Practice words: | Japanese | Wrong Way | Right Way | Meaning | |———|———|———|———| | tsukue | “t-skoo-eh” | “ts-koo-eh” (one beat) | desk | | tsunami | “t-soo-nah-mee” | “ts-nah-mee” | tsunami | | tsuki | “t-soo-kee” | “ts-kee” | moon | | tsumori | “t-soo-moh-ree” | “ts-moh-ree” | intention | | natsu | “nah-t-soo” | “nah-ts” | summer |

More examples: - **sushi** (soo-shee) - sushi - **matsu** (mah-ts) - to wait / pine tree - **kutsu** (koo-ts) - shoes - **tsuyoi** (ts-yoh-ee) - strong - **tsumetai** (ts-meh-tah-ee) - cold (to touch)

8.3.2.3 SH Sound (shi, sha, sho, shu, she) The Japanese “sh” is slightly softer than English “sh” but similar enough that English speakers don’t struggle with it.

Practice words: - **shinkansen** (sheen-kahn-sen) - bullet train - **shōyu** (shoh-yoo) - soy sauce - **shizuka** (shee-zoo-kah) - quiet - **shimasu** (shee-mahs) - to do - **shashin** (shah-sheen) - photograph

8.3.2.4 CH Sound (chi, cha, cho, chu, che) Similar to English “ch” in “cheese” - this one is easy for English speakers.

Practice words: - **chūshajō** (choo-shah-joh) - parking lot - **ocha** (oh-chah) - tea - **chizu** (chee-zoo) - map/cheese - **chotto** (chot-toh) - a little - **chawan** (chah-wahn) - tea bowl

8.3.3 Consonant Combinations with Y (Palatalization)

Many consonants can combine with “ya,” “yu,” or “yo” to create a single syllable sound. These are written with a small , , or .

Base	+ ya	+ yu	+ yo	Example
k	kya	kyu	kyo	kyō (kyoh) - today
s	sha	shu	sho	shashin (shah-sheen) - photo
t	cha	chu	cho	chūmon (choo-mon) - order
n	nya	nyu	nyo	nyūsu (nyoo-soo) - news
h	hya	hyu	hyo	hyaku (hyah-koo) - hundred
m	mya	myu	myo	myōji (myoh-jee) - surname
r	rya	ryu	ryo	ryokan (yoh-kahn) - inn
g	gya	gyu	gyo	gyūniku (gyoo-nee-koo) - beef
j	ja	ju	jo	jikan (jee-kahn) - time
b	bya	byu	byo	byōin (byoh-een) - hospital
p	pya	pyu	pyo	pyū (pyoo) - <i>whoosh</i> (sound effect)

Important: These are ONE syllable, not two: - **kyō** is pronounced “kyoh” (ONE beat), not “kee-yoh” (two beats) - **ryokan** is “yoh-kahn” (3 beats), not “ree-yoh-kahn” (4 beats) - **shashin** is “shah-sheen” (2 beats), not “sha-sheen” (2 beats but different)

Practice words: - **kyōto** (kyoh-toh) - Kyoto - **ryōri** (yoh- ee) - cooking/cuisine - **byōki** (byoh-kee) - illness - **jakusha** (jyah-koo-shah) - the weak - **happyō** (hahp-pyoh) - presentation

8.4 C. SPECIAL RULES

8.4.1 1. Double Consonants (Geminate Consonants) - The Pause

Double consonants (/ - small tsu) create a brief pause before the consonant. This pause is **just as important as any other sound** - it changes meaning!

Rule: When you see a double consonant (kk, pp, tt, ss, etc.), pause for ONE beat before saying the consonant.

How it works: - The small (tsu) represents one full syllable of silence/pause - Count it as a beat when saying the word - Hold your mouth in position for the next consonant during the pause

8.4.1.1 Minimal Pairs (words that differ only by the double consonant):

Without pause	With pause	Difference
kako (kah-koh)	kakkō (kahk-koh)	past / appearance
oto (oh-toh)	otto (oht-toh)	sound / husband
kite (kee-teh)	kitte (keet-teh)	come (-form) / stamp
saki (sah-kee)	sakki (sahk-kee)	ahead / earlier
ichi (ee-chee)	icchi (eech-chee)	one / agreement

How to practice: 1. Say the word slowly with an exaggerated pause 2. **kakkō**: “kah-(pause)-koh” - hold your mouth in “k” position during pause 3. **kitte**: “kee-(pause)-teh” - hold your mouth in “t” position during pause 4. **matte**: “mah-(pause)-teh” - wait

Common words with double consonants: - **gakkō** (gahk-koh) - school - **kippu** (keep-poo) - ticket - **zasshi** (zahs-shee) - magazine - **massugu** (mahs-soo-goo) - straight ahead - **itte** (eet-teh) - say (-form) -

motte (moht-teh) - hold (-form) - **chotto** (chot-toh) - a little - **kitte kudasai** (keet-teh koo-dah-sah-ee) - please cut - **motto** (moht-toh) - more - **zutto** (zoot-toh) - all along

Practical example: - **Chotto matte kudasai** (chot-toh maht-teh koo-dah-sah-ee) - Please wait a moment
- Two double consonants: pause before “tt” in both “chotto” and “matte”

8.4.2 2. Long Vowels (Extended Vowels)

Long vowels are held for TWO beats instead of one. This **changes the meaning** of words, so it’s critical to get it right.

How to write long vowels: - In hiragana: → a, → i, → u, → i or e, → u or o - In katakana: add a dash () after the vowel - In romaji: either double the vowel (aa, ii, uu, ei/ee, ou/oo) or use macron (ā, ī, ū, ē, ō)

Rule: Hold the vowel for TWICE as long as normal.

8.4.2.1 Minimal Pairs (words that differ only by vowel length):

Short vowel	Long vowel	Difference
obasan (oh-bah-sahn)	obāsan (oh-baah-sahn)	aunt / grandmother
ojisan (oh-jee-sahn)	ojīsan (oh-jeee-sahn)	uncle / grandfather
koko (koh-koh)	kōkō (kooh-kooh)	here / high school
yuki (yoo-kee)	yūki (yooo-kee)	snow / courage
suki (soo-kee)	sūki (sooo-kee)	like / ski
e (eh)	ē (ehh)	picture / yes (casual)
koko (koh-koh)	kōko (kooh-koh)	here / incense

How to practice: 1. Say the short version with one beat per syllable 2. Say the long version, holding the long vowel for two beats 3. **oba-san** (3 beats) vs **o-baa-san** (4 beats) 4. Count on your fingers to make sure you’re adding the extra beat

Common words with long vowels: - **arigatō** (ah-ree-gah-tooh) - thank you - **ohayō** (oh-hah-yooh) - good morning - **tōkyō** (tooh-kyooh) - Tokyo - **sūpā** (sooo-paah) - supermarket - **kōhī** (kooh-heee) - coffee - **eigo** (ehh-goh) - English - **onēsan** (oh-nehh-sahn) - older sister - **sensei** (sen-sehh) - teacher - **kēki** (keh-kee) - cake - **chīzu** (cheee-zoo) - cheese - **kūkō** (kooo-kooh) - airport - **yūbinkyoku** (yooo-been-kyoh-koo) - post office

Practical example: - **Kōhī o kudasai** (kooh-heee oh koo-dah-sah-ee) - Coffee please - Two long vowels: hold “oh” twice in “kōhī”

8.4.3 3. Pitch Accent Basics

Unlike English which uses stress (volume and force), Japanese uses **pitch accent** (high vs low tone). The pitch pattern can change the meaning of words.

What is pitch accent? - Each syllable is pronounced at a HIGH pitch or LOW pitch - The volume and force stay relatively even - Pitch patterns are like musical notes: some syllables are “higher” and some are “lower”

Basic patterns: 1. **Flat/High:** Start high, stay high → **sakana** (sah-kah-nah) - fish 2. **Head-High:** Start high, drop low → **ame** (ah-meh) - rain 3. **Tail-High:** Start low, rise high → **ame** (ah-meh) - candy 4. **Mid-drop:** Start high, drop, then low → **kokoro** (koh-koh-roh) - heart

8.4.3.1 Minimal Pairs (words that differ only by pitch):

Word	Pitch Pattern	Meaning
hashi	High-low	chopsticks
hashi	Low-high	bridge
hashi	High-high	edge
ame	High-low	rain
ame	Low-high	candy
kaki	High-low	oyster
kaki	Low-high	persimmon

Should you worry about pitch accent as a beginner?

Short answer: Not too much. Focus on the vowels, consonants, and special rules first.

Why? 1. Native speakers will understand you from context 2. Pitch accent varies by region (Tokyo vs Osaka have different patterns) 3. It's more important for advanced learners 4. Getting the basic sounds right matters more initially

However: - Be aware it exists - Listen carefully to native speakers - Try to mimic the melody/music of what you hear - When you watch Japanese media, notice the pitch patterns - As you progress, you can study it more formally

Practical tip: Think of Japanese like singing - there's a melody to each phrase. Try to match the melody rather than individual pitches at first.

8.4.4 4. Devoicing (Whispered Vowels)

Sometimes the vowels **i** and **u** are devoiced (whispered or almost silent), especially: - Between voiceless consonants (k, s, t, p, h, f) - At the end of polite verb forms

Common examples:

Word	Full pronunciation	Natural/Devoiced	Meaning
desu	deh-soo	deh-s' (u is silent)	is/am/are
shimasu	shee-mah-soo	shee-mah-s' (u is silent)	to do
deshita	deh-shee-tah	deh-sh'tah (i is devoiced)	was
sukiyaki	soo-kee-yah-kee	s'kee-yah-kee (first u is devoiced)	sukiyaki
sukoshi	soo-koh-shee	s'koh-shee (u is devoiced)	a little
keshiki	keh-shee-kee	keh-sh'kee (i is devoiced)	scenery

Should you do this? - It happens naturally as you get faster at speaking - Don't worry about it at first - pronounce all vowels fully - Native speakers will do it automatically - You might start doing it naturally after hearing a lot of Japanese

8.5 D. COMMON PRONUNCIATION MISTAKES

8.5.1 Mistakes English Speakers Make

8.5.1.1 1. Adding extra vowels where they don't belong **Wrong:** "ramen-u" (rah-men-oo)
Right: "ramen" (rah-men)

Wrong: "des-oo" (deh-soo) **Right:** "desu" (deh-s' - u is devoiced)

Fix: Japanese syllables end in either a vowel or "n" - don't add vowels to the end of words.

8.5.1.2 2. Saying “L” instead of the Japanese “R” (tap) **Wrong:** “arigatou” → “ah-lee-gah-toh”
Right: “arigatō” → “ah- ee-gah-toh” (tap the R)

Wrong: “ramen” → “lamen” **Right:** “ramen” → “ amen” (tap the R)

Fix: Tap your tongue lightly behind your upper teeth - it’s not “L,” not “R,” but a single tap.

8.5.1.3 3. Pronouncing “tsu” as two syllables (“t-su” or “too”) **Wrong:** “tsunami” → “t-soo-nah-mee” (4 syllables) **Right:** “tsunami” → “ts-nah-mee” (3 syllables)

Wrong: “tsuki” → “t-soo-kee” or “too-kee” **Right:** “tsuki” → “ts-kee” (2 syllables)

Fix: Practice saying “cats” and focus on the “ts” sound. Now add “oo” to it in one beat: “ts-oo.”

8.5.1.4 4. Not pausing for double consonants **Wrong:** “matte” → “mah-teh” (sounds like “mate”)
Right: “matte” → “mah-(pause)-teh” (wait)

Wrong: “kitte” → “kee-teh” **Right:** “kitte” → “kee-(pause)-teh” (stamp)

Fix: The small っ is a full beat of silence. Count it!

8.5.1.5 5. Not holding long vowels long enough **Wrong:** “ohayō” → “oh-hah-yoh” (3 beats)
Right: “ohayō” → “oh-hah-yooh” (4 beats - hold the ō)

Wrong: “arigatō” → “ah-ree-gah-toh” (4 beats) **Right:** “arigatō” → “ah-ree-gah-tooh” (5 beats - hold the ō)

Fix: Long vowels are TWO beats, not one. Count them!

8.5.1.6 6. Using English vowel sounds instead of Japanese ones **Wrong:** “cat” sound in “arigatō” → “ari-GAT-oh” **Right:** “father” sound → “ari-GAH-toh”

Wrong: “sit” sound in “kitte” → “KIT-teh” **Right:** “see” sound → “KEET-teh”

Fix: Remember the 5 vowels: ah, ee, oo, eh, oh. Always use these sounds.

8.5.1.7 7. Stressing syllables like in English **Wrong:** “a-ri-GA-tō” (stressing “ga”) **Right:** “a-ri-ga-tō” (all syllables equal stress, but with pitch changes)

Wrong: “sa-YO-na-ra” (stressing “yo”) **Right:** “sa-yo-na-ra” (even stress)

Fix: Give each syllable equal time and force. Japanese is syllable-timed, not stress-timed.

8.5.1.8 8. Pronouncing “fu” like English “f” **Wrong:** “tofu” → “TOF-oo” (upper teeth on lower lip) **Right:** “tofu” → “TOH-foo” (breathy, rounded lips, no teeth contact)

Wrong: “futon” → “FOOT-on” **Right:** “futon” → “foo-ton” (breathy “f”)

Fix: Don’t let your teeth touch your lip. Blow gently through rounded lips.

8.5.1.9 9. Forgetting that “u” is often silent in “desu/masu” endings **Wrong:** “desu” → “deh-SOO” (pronouncing u fully) **Right:** “desu” → “deh-s” (u is devoiced/silent)

Wrong: “tabemasu” → “tah-beh-mah-SOO” **Right:** “tabemasu” → “tah-beh-mah-s”

Fix: In casual/natural speech, the “u” in desu and masu endings is barely audible.

8.5.1.10 10. Not distinguishing between “n” and “m” sounds before certain consonants The standalone “n” () changes pronunciation depending on what comes after it:

- Before **p, b, m** → sounds like “m”
 - **shinbun** → “shim-bun” (newspaper)
 - **kanpai** → “kam-pah-ee” (cheers)
 - **sanma** → “sam-mah” (Pacific saury fish)
- Before **k, g** → sounds like “ng”
 - **ginkou** → “gingkoh” (bank)
 - **sankaku** → “sangkah-koo” (triangle)
- Otherwise → sounds like “n”
 - **sensei** → “sen-say” (teacher)
 - **densha** → “den-shah” (train)

Fix: Let the “n” naturally adapt to the following consonant. Don’t force it to always sound like “n.”

8.5.2 Summary of Key Pronunciation Tips

Master the 5 vowels - they never change **Tap the R** - don’t say L or roll the R **“Tsu” is one syllable** - practice “cats-oo” → “tsu” **Pause for small** - double consonants need a beat of silence **Hold long vowels** - they’re twice as long (two beats) **All syllables get equal time** - no stress like in English **“Fu” is breathy** - no teeth on lip **Devoice “u” in desu/masu** - it’s almost silent **Don’t add extra sounds** - no extra vowels at the end **Listen and mimic** - match the melody/music you hear

8.7 F. PRONUNCIATION PRACTICE TIPS

8.7.1 For Self-Study:

1. Listen actively

- Watch Japanese media (anime, dramas, news)
- Use language learning apps with audio
- Listen to Japanese music and try to sing along
- Pay attention to the melody and rhythm

2. Record yourself

- Use your phone to record yourself saying words/phrases
- Compare to native speaker audio
- Identify where your pronunciation differs
- Practice the differences repeatedly

3. Shadow native speakers

- Play audio of a native speaker
- Repeat immediately after them (like an echo)
- Try to match their speed, pitch, and rhythm
- This helps you internalize natural pronunciation

4. Use minimal pairs

- Practice words that differ by only one sound
- This trains your ear and mouth to distinguish similar sounds
- Examples: kako/kakkō, obasan/obāsan, hashi (chopsticks)/hashi (bridge)

5. Slow down

- Don't rush when learning
- Pronounce each syllable clearly and correctly first
- Speed comes naturally with practice
- Better to be slow and correct than fast and wrong

6. Focus on problem sounds

- Identify your personal weaknesses (R sound? Tsu? Double consonants?)
- Dedicate extra time to these specific sounds
- Practice them in isolation before using them in sentences

7. Learn by context

- Don't just memorize sounds - learn words and phrases
- Understand what you're saying
- This makes practice more engaging and memorable

8.9 H. FINAL PRONUNCIATION CHECKLIST

Before moving forward, make sure you can:

- Pronounce all 5 vowels correctly and consistently
- Distinguish between short and long vowels
- Pronounce the Japanese “R” as a tap (not “L” or rolled “R”)
- Say “tsu” as one syllable
- Say “fu” with a breathy sound (not English “f”)
- Pause correctly for double consonants (small)
- Hold long vowels for two beats
- Pronounce all syllables with equal stress
- Say consonant + “y” combinations as one syllable (kya, ryu, etc.)
- Devoice “u” in “desu” and “masu” endings naturally

Remember: Perfect pronunciation comes with time and practice. Don’t be afraid to make mistakes—Japanese people appreciate any effort to speak their language. Focus on being understood first, then refine your accent over time.

8.10 Summary

Japanese pronunciation is highly systematic: - **5 consistent vowels:** a (ah), i (ee), u (oo), e (eh), o (oh)
- **Soft consonants:** Most are similar to English but less forceful - **Special sounds:** R (tap), tsu (one syllable), fu (breathy) - **Double consonants:** Add a pause before the consonant - **Long vowels:** Hold for two beats instead of one - **Pitch accent:** High and low tones (advanced concept) - **Equal syllable timing:** No heavy stress like English

With consistent practice and attention to these rules, you’ll develop clear, understandable Japanese pronunciation. Good luck, and enjoy learning! !(Ganbatte! - Do your best!)
